Idea #9: Check Your State and Local Laws

by Leigh Collazo (MrsReaderPants)

The question of the day: Some schools are withholding report cards due to nonpayment of fines.

Is this legal? I have heard differing opinions on whether or not it is legal for schools to withhold report cards for nonpayment of fines, so I decided to do a little fancy Googling and find out for myself if this practice is, in fact, legal.

Idea #11: Set (and Test!) Some Boundaries

by Collette Jakubowicz (Mrs J in the Library)

When the end of the school year is in sight, you might be feeling like you can't make it until June. It might seem counterintuitive, but now is the perfect time to set boundaries around your work, so that you have more time for rest, personal time, friends, or family.

That's because if it works over the next few weeks, it will be easier to keep in place when back-to-school rolls around...

Idea #14: PLAY GOOGLE'S INTERLAND GAME

submitted by Collette Jakubowicz (Mrs J in the Library)

This game is great for reviewing digital citizenship skills, just in time for summer...when our students might be spending more unsupervised time online.

You can use this game as part of a unit about media literacy, or just let students go through the game independently.

Important note: There is no way for students to save their game or their high score. If they exit the window before completing a level, they will lose their progress.

THE SCIENCE OF TINY THINGS (AND WHY WE LOVE THEM!)

Something fun to ponder...as elementary librarians for little people... have you ever wondered if we're just naturally drawn to tiny, cute things? (Could loving littles actually be part of our human nature?!) This article says that cute, tiny things might actually give us a jolt of dopamine! (Hmmm... I do like teeny tiny books!)
